

# Pursuing the Dreams

of *Brown* and the Civil Rights Act:  
A Living History of the Fight for Educational Equality

April 10-11, 2014

UMKC  
School of Law

The University of Missouri-Kansas City and Michigan State College of Law proudly announce a truly historic gathering. This two-day symposium brings together the litigants, attorneys, and others who were actually involved in the Supreme Court's landmark 1954 decision in *Brown v. Board of Education*, the passage of the 1964 Civil Right Act, as well as the subsequent struggle for diversity and equality in education spanning the sixty years since the *Brown* decision.

*Pursuing the Dreams* will provide the audience an unparalleled interaction with those who have made history in the struggle for educational equality. Nationally known experts, as well as community leaders, will expand the perspective and add another dimension to those interactions. The symposium will also be an opportunity to look at the challenges that remain sixty years after *Brown*.

The Joseph Cohen Lecture Fund presents:
